Position	: Sales and customer service
2016- 2017	: Earthscope Technologies
Position	: ICT department.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, HTML, CSS, SQL.
- **Operating Systems:** Windows, Linux, macOS.
- **Databases:** MySQL, MongoDB.
- **Networking:** TCP/IP, DNS, DHCP, Network Configuration.
- **Soft Skills:** Problem-Solving, Teamwork, Time Management, Communication, Adaptability.
- **Version control:** Git ,github ,Collaborative Development workflows
- **Development Tools:** VS Code ,Command line Interface, Browser Dev Tools
- **Deployment :**Knowledge of deployment process and hosting platforms skills

Soft Skills & Professional Attributes

- **Problem-Solving:** Strong analytical thinking and debugging capabilities • **Communication:** Clear technical communication and documentation skills
 - **Team Collaboration:** Experience working in development teams and peer programming • **Time Management:** Proven ability to meet project deadlines and manage multiple tasks • **Continuous Learning:** Self-motivated to stay current with emerging technologies • **Attention to Detail:** Meticulous approach to code quality and testing
-

TECHNICAL PROJECTS

Task Management Web App.

- Developed full-stack web application for task management with user authentication
 - Developed a [describe project, e.g., web application] using [specific technology, e.g., Python and Django] that [describe outcome, e.g., automated a data entry process].
 - Collaborated with a team of [number] to [e.g., design and build the user interface], contributing to a measurable outcome, e.g., 25% improvement in user experience
 - Participated in a class project to design and implement a zero-trust network security model, enhancing data protection for [number] of users.
 - Conducted system diagnostics and security audits using tool, e.g., Nmap to identify and fix potential vulnerabilities.

Internship/Volunteer Experience

IT Intern, National Health insurance fund, Nairobi

- Assisted senior IT staff with daily tasks, including network troubleshooting and user support, resolving over number, e.g. 100 technical issues.
- Collaborated with the team to migrate users to a new software platform, ensuring a smooth transition.

Personal Portfolio Website

Technologies: React, HTML5, CSS3, Responsive Design

- Created personal portfolio website showcasing development projects and skills
 - Implemented responsive design principles for optimal mobile and desktop experience
 - Integrated contact forms and interactive elements using JavaScript
-

ACHIEVEMENTS & RECOGNITION

Complete Program Achievement | National Recognition

- **Physical Recreation:** Demonstrated commitment to personal fitness and outdoor activities
 - **Skills Development:** Acquired and developed practical skills contributing to personal growth
 - **Community Service:** Completed substantial volunteer work benefiting local communities
 - **Adventurous Journey:** Successfully completed challenging expedition demonstrating resilience and teamwork
 - **Personal Development:** Showcased perseverance, leadership, and commitment to continuous improvement
-

PROFESSIONAL DEVELOPMENT & LEARNING

- **Moringa School Alumni Network:** Access to mentorship and industry connections
 - **Open-Source Contributions:** Contributions to team worker project for better experience
 - **Coding Challenges:** Regular practice on platforms like HackerRank, Leet Code, or Code wars
 - **Industry Engagement:** Following development trends, attending virtual tech meetups
 - **Agile Methodologies:** Exposure to Scrum and collaborative development practices
